

Assignment-1 (Internal Assistentment-1)

Subject Name: Software Engineering and Project Management

Department: Information and Communication Technology

Faculty: Dr. Deepak Sahu

1. What is the prime objective of software engineering?(CO1)
2. Define software engineering paradigm. (CO1)
3. What do you mean by spiral model? (CO1)
4. Write a brief note on waterfall model. (CO1)
5. Distinguish between process and methods. (CO1)
6. Give the importance of software engineering. (CO1)
7. Define software process. State the important features of a process. (CO2)
8. Write any two characteristics of software as a product. (CO2)
9. List the process maturity levels in SEI' s CMM. (CO5)
- 10.Distinguish clearly between verification & validation. (CO5)
- 11.What are the functions of data architecture? (CO2)
- 12.Define System Modeling.(C03)
- 13.State the System Engineering Hierarchy. (CO2)
- 14.Mention some of the factors to be considered during System Modeling.(CO3)
- 15.Define Verification &Validation (CO5).

Instruction:

All students are hereby informed that the IA-1 assignment is to be completed in their own handwriting and submitted through Microsoft Teams. After completing the assignment, ensure that your name, roll number, course, and section are clearly mentioned on the first page. The handwritten pages should be neatly scanned or photographed using a scanning app such as Microsoft Lens, CamScanner, or Adobe Scan, and then compiled into a single PDF file. The file must be named in the format RollNumber_Name_IA1.pdf before uploading. Students should log in to MS Teams, open the respective course, go to the Assignments tab, select the IA-1 assignment, and upload the PDF file for submission. Please make sure that the uploaded file is clear, complete, and in the correct order. The deadline for submission is [20/09/2026].
